

# Premier Alarm Master training course

## Zero to hero in 2 days

A two-day fast track course for beginners / installers with basic install knowledge, to go from zero to master Premier alarm installer in 2 days.

At the end of the 2 days you should:

- Understand the optimal design and installation procedure using the Texecom Premier alarm panel & Ricochet wireless technology
- Be able to install quickly & with minimal faults, including programming & field craft tips
- Understand common installer faults & be capable at basic fault-finding

## Hands-on training format & certification

Training includes a mix of classroom tuition mixed with hand-on installation and programming training, using live Premier Elite panels - solo and team work - followed by a “Premier Alarm Master” certification test at the end of the two days.

Maximum attendees of 4 per class.

**“I learnt a lot from Nathan’s training. The Premier is a complex alarm panel, and Nathan really helped me get my head around it and teach me what I should and shouldn’t be doing.”**

Mo, Alarm Installer (London)

# Texecom

## Key areas of learning

Key areas the Premier Alarm Master course covers include:

- **Panel introduction:** functionality overview, features & faults of Premier Elite
- **Sensors introduction:** what sensors to use where, features & faults (including Ricochet wireless technology)
- **How to design & set-up a system:** typical system design & standardised installation procedure (what to install when / where) for maximising installation speed & error minimisation
- **Programming:** understand full Premier programming features; learn standardised programming procedure & system set-up - including using Wintex
- **Installation tips & tricks:** tips on how best to set up the Premier panel, 'learn' wireless Ricochet sensors onto system
- **Common FAQs & fault finding:** learn some common installer errors, learn how to fix basic faults

Depending on the progress of the class, we can also include \*advanced extras\* including:

- **Alarm Monitoring:** wiring & programming different diallers, including LiveTalk audio-verification

## Other things you should know

### Cost

**£375 + VAT** per person for the 2 day course. Savings available for multiple bookings.

### Location

Easingwold, North Yorkshire.  
Accommodation can be provided at c.£60 a night.

### You

Attendees need to have previous alarm installation experience, and ideally had some experience of the Premier.

### Us

The course is led by Nathan, our head of training, who's headed our training for 5 years.
